SPHRIGAO. The ancient Greeks had in their languag

an admirable verb, originally applied to the young of animals and thence, by an easy and obvious transition, to the human kind. The word signifies at once to be overfed, to take no exercise and to behave as might be expected from such a manner of life; and it would have been employed, instinctively and appropriately, by an Athenian to describe the present condition of the Liberal Party. Swollen into rank luxuriance by the surfeit of majority, and blundering blindly along, nnsurbed by the charioteer of reason or of lecency, the Government and its adherents ere endeavouring to overset want-unly any thing and everything which is, in the least degree, the handswork of their predecessors, regardless even though it be to their own

An eminent public servant retired last year from the theatre of his toils and his triumphs, broken in health and worn by anxiety: he returned to his country ungreeted by ovation, and remained for nearly a twelve-month without pension or gratuity, in an unhonoured obscurity. Not he it was, but the Government, whose loyal servant he had been, that introduced into South Africa that slavery (to accept a comic definition) which served an Opposition with the cheapest and most insincere election cry ever yet howled from the hustings; and it might have been a statesmanlike, as it certainly had been a chivalrous, policy for the new Government to disarm and inciliate Imperialism by honouring a neglected upholder of Empire. Or,—well might have

But an incorrigible optimism would be needed to cherish any such hopes in a Hooligan Ministry; and it should have surprised no one that the first Parliamentary notice taken of Lord Milner was a notice of affront and of infamy. For one little stip, generously admitted though in reality unproven, a great man was held up to public censure and a vilification the enormity of which staggered even its abattors and perpetrators. Let us beware," cried Mr. Winston Charchill, rising with his theme, as he proved the political nonentity of his victim, "Let us beware lest by pursuing him too far, we regreate him." The Ministerial party is strong," he continues in his unctuous peroration, 'and can afford to be generous." And the lofty-souled statesman sinks back amid thunders of applause, and his cowardly hedging amendment carried, and seared for ever across the annals of Westminster.

For what, in all truth, has it served the nation, or even the party? Out bono, murmurs the astounded onlooker. It is not easy to see. Yet we will make bold to say that this mended motion, misconceived and ill-begotten though it has been, may yet prove the salvation of the Unionist party ; si natura negat, facit in dignatio versum is true of succe stulendeavour in politics no less than in the realm of satire, and the indignant disgust of colonies and mother-country is already calling with no uncertain voice for justice and for appre-ciation of misprised greatness. For a year Lord Milner has rested, and when he takes the field—and that must be at no distant date he will stand forth strong in the confidence that he is supported enthusiastically by all those whose enthusiasm and devotion a statesman would desire to command

LOCAL AND GENERAL.

Housing Government Officials.

It is reported that the Government has postponed the scheme of building houses for its officials at Ghezireh.

The imports of coal from January 1 to April 5 amounted to 322,845 tons, as compared to 164.659 tons during the same period last year. New Greek Hospital,

This aftern on the foundation stone of the new Greek Hospital at Chatby is to be laid. The present hospital is to be converted into a Polytechnic School.

Hedjaz Railway.

The Turkish papers announce that the Commission for the Hedjaz Railway has just p'aced an order in Western Europe for 6,000 tons of rails and 10 000 tons of sleepers.

Hashish Seizura.

The Coast-Guards seized 31 sacks of hashish in the eastern harbour of Alexandria this morning. The hashish was concealed in the drain which empties out into the sea.

Cigarette Industry Threatened.

A petition signed by the most important manufacturing exporters of cigarettes has been presented to Sir Vincent Corbett regarding the situation in which their industry has been placed by the increase in the import duties on eigarettes in Europe.

English v. American Work.

Two hundred bogie wagons are being deli vered at Alexandria by the Leeds Forge Company for the Egyptian State Railways, to replace bogies of American design and construction, which, after having been working for some time, have been found unsuitable.

The Bedouin Bergass.

Not the least agreeable part of the snocess of this entertainment at the Khedivial Sporting Club, in honour of the visit of the Prince and Princess of Wales, is the important fact that the gate-money amounted to about £1,100. We congratulate the club on this hand-ome financial result.

Greek Independence Day.

To-day is the anniversary of the declaration of Greek independence. High masses were celebrated at the Greek Orthodox Cathedral at Alexandria and at the Greek Church in th Hamzaoui at Cairo. The Consular representatives of Greece attended the services. His Beatitude the Patriarch Photius I. presided at the service at Alexandria. A reception afterwards followed at the Convulate.

Hotel Beau-Rivage Sold.

Mrs. St inschneider has sold her hotel at Ramleh for the sum of £12 500. The purchasers are Messrs, G. and M. Ronguvits, who during the past season have managed the hote' so ably. Their Savoy Hotel at Loxor is vell known, having had an excellent winter season. We wish them every success and prosperity with the Beau Rivage, which is one of the prettiest and most fashionable hotels in Ramleh.

The Pilgrimage Tragedy.

"Al Mosyad," referring to the tragedy of the pilgrimage recounted in our issue of yesterday, asks whether the prisoner is liable to punish ment under Ezyptisn law for his crime. Surely Article 3 of the Penal Code answers the question plainly enough. As our readers are aware the Hagi shot his wife during the march from Mecca to Medina and asserted that a Bedouin had murdered the woman. The security of the Hedjaz during this year's pilgrimage made the statement most improbable and the man was therefore arrested.

Alexandria Maternity Home.

We are glad to be in a position to state that the appeal made for the building fund of the excellent institution, the Alexandria Maternity Home, has met with a considerable amount of success, A generous Alexandrian, who wishes to preserve his or her anonymity, promised the promoters of the appeal for the fund that if they succeeded in obtaining £1,000 he would give an equal amount. The committee have now succeeded in resching this amount and the anonymous philanthropist has sent a cheque for £1 000. As the donors mentioned in the first list published in our columns have in many cases increased their donations, we publish the total list in another column.

ENGLAND'S RESOLUTE ATTITUDE.

(Gazette's Special Service).

LONDON, Saturday. The "Times" correspondent at Constantino ole says that negotiations between the British Embassy and the Porte for the withdrawal of the Turkish troops from Talah are still in progress and there is every hope of a satis factory conclusion. The British Government is firmly resolved to maintain the rights of the Khedive but wishes to give the Turks every opportunity to escape with as little loss of dig ity as possible from the impasse which they have been led into by the aggressive action of their local agents. In well-informed quarters it is not thought that the Porte is in any danger of misunderstanding England's attitude or forgetting that there are limits to the patience of the Foreign Office.

Nothing is yet known in official circles in Cairo regarding the question of Akaba beyond the facts already reported by Reuter's Agency from Constantinople. Negotiations are being pursued at the Turkish Capital, and it is therefore from London or from Stamboul that the first news of a settlement or a further impasse will reach us.

Ghezi Mukhtar Pacha has interviewed the Khedive on the subject and has doubtless given his Highness a full explanation of the Turkish offi ial view of the situation. As far as we can understand it, the Porte's contention runs thus : "Akaba is ours, Tabah is part of Akaba - therefore Tabah is ours." Tabah lies from 8 to 10 miles S of the fort and village of Akaba. As it comprises only one hut, a well, and a palm it can hardly be described as a appurb of Akaba, - but the possibilities of diplomatic language are inexhaustible and we daresay that Sucz will some day be claimed as a part of Tabah.

In the House of Commons last week, Mr. Runciman (Parliamentary Secretary to the Local Government Board), on behalf of the Foreign Secretary, informed Mr. Ashley (U, Blackpool) that Turki-h troops were still in occupation of Tabah. Negotiations on the subject are still proceeding with the Sublime Porte, but the Foreign Secretary was at present unable to give any further information.

BELGIUM AND ABYSSINIA.

A Belgian Commission will shortly pass through Cairo on its way to Adis Abebs, in order to negotiate a commercial agreement between Belgium and Abyssinia.

PAY OF GOVERNMENT SERVANTS.

Lord Biward Cecil Pachs, Under-Secretary of State for Finance, and President of the Commission appointed for the betterment of the condition of Government employee, has handed the Commission's report to Sir Vincent Corbett, Financial Adviser, The Commission in their report propose to distribute the L.B. 120,000 allowed for in the Budget for this year for he hanefit of amployes receiving a salary of less than L.E. 10 a month,

It is probable that a further sum as well as the balance of the actual sum, will be put on the 1907 Budget for the increase of the salaries of the higher employes,

CAIRO'S GARDEN CITY.

This afternoon the first adjudication will be held in cornection with the apportionment of the lands of the Cairo Electric Railways and Heliopolia Oases C mpany, which will be the beginning of Cairo's new Garden City. If the scheme mee's with the approbation of the public an entirely new quarter of Cairo will come into being, and the pressing problem engendered of late years by the continuous rise in house rents will, it is hoped, be thus in great measure alleviated.

ARCHÆOLOGICAL EXCURSIONS.

The ruins of the ancient city of Taposir's Magna are among the most interesting relic of the past in the neighbourhood of Alexandria, and the site has become quite accessible since the construction of the Khadive's line of railway through the Mariout district. The rains are on a lofty ridge overlooking the sea and include a most curious subterranean church, the remains of a palace dating from the Roman Occupation, the Arab's Tower, etc., etc. and the ride from the railway to the arcient city is very delightful as the country traversed is diversified and by no means merely barren desert. The Alexandria Archeological Society have

done well to organise an excursion to this spot, which is to take place on Monday next. The start is to be made from Wardian station, where a train will be placed at the disposition of the party by the Dair Khassa. Thence they

RETURN OF MAHMAL.

KHEDIVE PRESENT AT CEREMONY.

H.H. the Khadive presided over the cere mony of the Holy Carpet at 9 s.m. to-day at the Mastabat el Mohmal, Mohamed Alisquare. This is the first occasion on which the Khedive has presided over the ceremony with which the Mahmal is greeted on its return to Cairo.

Y-sterday afternoon the Mahmal was con veyed from Abbassieh to the Mohamed Alisquare, large crowds gathering at the last

named place.

To-day's function was very largely attended and followed the usual precedent; the Khedive figuratively receiving the Carpet three times from Miralai Mohamed Bey Husni, the Bmir el Hag. The Ministers, the ulema, Ghazi Makhtar Pacha, and a great number of officials and notables were present, and a fair number of tourists, despite the lateness of the date, were to be seen among the Europeans present.

BEYROUT LAZARETTO.

(FROM OUR CORRESPONDENT).

Beyrout, April 2. Dr. Clemow, doctor of H.B.M.'s Embassy at Constantinople and British delegate on the Ottoman Board of Health, Ahmed Raghib Bev. member of the Board of Health, and Dr. Balili, dector of the Greek Legation at Constantinople and delegate for Greece on the above Board, have called at Beyront en route to Constantineple after inspecting the Ottoman lezaretros

I learn that the main object of the delegates' visit to Beyrout is the reorganization of our lazaretto, or failing a radical reform, the improvement of existing conditions. The plan of adical reform embodies the erection of up-todate fir-t class accommodation, on strictly hygienic lines, and other constructions, the whole cost being estimated at about £.0 (00. Considering the important revenue of the Sanitary Administration such a sum should not seem large, especially as it is to be devoted to the carrying out of urgent improvement toone of the most important legarettosofthe Ortoman Empire.

Dr. Clemow remained some days behind his colleagues, and sailed from here only on Saturday last. Considering the prominence of British interests in shipping it was natural that he should devote an extra amour tof time and energy on a scheme of this kind. Dr. Clemow typifies Eng ish steadfastness and thoroughpass of method, and it would not be too san-goine to hope that our lagretto, which has so far existed in a primitive condition and been conducted on much the same lines, would be raised to a higher standard worthy of its rank and importance. The rare topography of our lazaretto, perched as it is en a high cliff jutting into the sea, lands itself with peculiar fit ness to the accompli-hment of the project the delegates have in view, Whether this dream be realized or not, it is

to be hoped that at least better attention will be devoted to the restaurant department. Some very ugly comments and bitter complaints have been made by first-class passengers who, being used to every kind of modern comfort and general well-being, could not but grudge the rather high fare which they had to pay but which did not seem to procure them the equivalent or a first-olars service. more especially in regard to the quality of the food and the manner of serving same.

THE ABOUKIR MURDER.

The details of the crime perpetrated on Thurs. day night at Aboukir are as follows. A fishing fleet from Southern Italy comes every year to Alexandrian waters and makes its headquarters at Aboukir. Two boats of this fleet were off Aboukir on Thursday when Giovanni Bellifem nine asked his comrade, Con' Mauro, for a drink of wine. The latter answered roughly and refused to give him the liquor. A fierce quarrel e-seed and the men disembarked and night with knives on the sea-hore. Mauro succeeded in plunging his knife into the hear of Be lifemmine who died on the spot.

The aged father of the murdered man, on seing his son tretched a corpse on the beach, made for the murderer, who plunged his knife into the old man but did not inflict a fatal and taken to the Italian Consulate at A'exandria, where a preliminary enquiry is being held this morning,

EGYPTIAN COTTON CROP. PERSONAL AND SOCIAL.

IS IT DETERIORATING?

MR. LUMBROSO'S VIEWS.

Mr. J. Lumbroso has favoured us with a copy of the following letter, which he has addressed to the "Manchester Guardian" and

the "Liverpool Daily Post": -The question of the deficiency in the yield of the Egyptian cotton crops, mentioned by the Financial Adviser, Sir Vincent Corbett, in his annual report, has caused some excitement in all branches of the trade; the prosperity of the country depending entirely on the cotton crop, and the prices at which it is sold.

Saveral letters published by members of the and-owners association, and Mr. Foaden, secretary of the Khedivial Agricultural Association in a lengthy report, attribute the principal esuses of deterioration to the restriction of irrigation during the hot months, by severe rotations, and to damages by worms and the autumn's fogs.

But the principal cause of the deterioration

mentioned by Sir Vincent Corbett is that whilst formerly only one-third of the land was planted with cotton every year, farmers have been gradually increasing it to half, and even

If we examine our crops in the last 20 years, we notice that until 1890 they varied from 2.800 0(0 to 80 0 (0) kantars.

In 1835 a crop of 8 629 0 0 kantars was considered so phenomenal that at the end of the season, to clear he balarce, Fully Fair w a sold at the same price as middling American. Since 1890 the crops have been rapidly

increasing to 4 159 000 in 1891; 4,780 000 in 1892; 5 220 0 0 in 1898; reaching 6 55 000 in 1898, the record crop, which has never been exceeded.

The following are our crops in the last 20 YABTA :

YEAR CROF YEAR CROF 1884/85 3 629.000 kant, 1895/96 5.256.128 kant, 1885/86 2.871.500 ,, 1896/97 5.879.479 ,, 1886/87 2.872.426 ,, 1897/98 6.558.628 ,, 1897/98 6.558.628 1898/99 5.588.816 1887/88 2.996.485 2.722.954 1899 900 6,509,645 1900/901 5.435.488 1901/902 6.369.911 1890/91 4.159.405 1891/92 4.765,341 1902/903 5.838,790 5.220.510 5.033.235 1903/904 6.508.947 1904/905 6.313.370 1894/95 4.619.233

1890 to 1898, in eight years, have more than doubled. The general opinion then was that in t e near future a crop of 10,000 0 0 kantarwould be raised, and each year a crop of 7,000 000 was expected.

But notwithstanding the constant increase in the land nutine of cultivation, more especially in Upper Egypt, where the production has reached 1000,000 karters, and the better water supply since the construction of the Assouan dam—still even with a favourable season the expected crop of 7,00 000 kanters has never been realized nor has the expected crop of 7,00 the season the expe has never been realised, nor has the record erop of 1898 ever been reached. It is evident that the same land of Lower Egypt that pro-

that the same land of Lower Egypt that produced in 1893 6.2f.0,000 kantars does not produce now more than 5.200.00, or an average reduction of about one kantar a feddan. In reference to the deterioration of quality as ataple, appearance, and waste, while formerly natives did not give particular attention to the selection of seed, and while latterly there has been a general improvement in this respect, facilities for obtaining selected seed having been given to the native farmers by the Khedivial Agricultural Society, still, in spite of all this, the quality of the late crops has been decidedly worse than that of the former year.

The damages caused by worms and for have existed more or less for many years ; it therefore seems fairly certain that the general deficiency in the yield and the devertoration of quality is derived principally from the system of planting cotton on the same land, every two years instead of three. The plant be oming impoverished is unable to resist any vagaries of climate, such as fogs, excessive heat, or sudden coolness.

Many native farmers cultivate a small proportion of their land with cereals for their own living, and bersim to feed the cattle and the rest is planted with cotton every year.

It is certain that a limited quantity of land with a certain number of hands and

and with a certain number of hands and cattle, is more properly cultivated, irrigate i and attended to, than a much larger quantity. The increased value paid for land might be justified by the very high prices of cotton and the low rate of the money market. But the situation seems more serious for the the situation seems more serious for the spinners of the finer counts. Spinners of thread and other similar fine produce must absolutely require our higher grades and staple, and America, the great cotton country of the world, is obliged to import from Egypt about 8,000 B/s a year, for her own consumption.

Several trials were made to plant Mitafianeed in the United States and other countries. seed in the United States and other countries but mostly proved a failure, and never gave a proceed result. But even in Egypt itself, neither the Sudan, nor Upper E that which has some very splendid land though irrigated by the same water of the Nile cannot give the same produce to serve as substitute to the five produce of the Delta.

five produce of the Delta.

All the land of Lower Egypt contains a certain quantity of salt, and if we consider that the finest cotton in the world is planted in Sea Island, we might infer that the superiority of Delta cotton as regard silkiness, strength, and ength of staple is due to the soil teing impregnated with salt.

Our crop this year, which promised to be a record one, will not exceed about 6 000 000 kantars, and the higher classes will be hardly sufficient for the requirements of the trade.

For the next season it is reported that

For the next season it is reported that planters, induced by the actual high prices, are increasing the cotton onl ivation. The Irriga-tion Department promised to do its best to reduce the rotations in the hot morths, and apply the necessary water for irrigation, and the Government has decided to fight by all means any appearance of worms. What will be the efficiency of these measures, and the final result of the next crop, is a question to be seen.

RHEUMATISM, SCIATICA, NEURALGIA,
ARE CURED BY
DR. WILLIAMS' PINK PILLS

The numerous ills that afflict thousands during winter months invariably proceed from an impoverished or stagnant condition of the blood. Dr. Williams' Pink Pills make new, pare blood with every dose, so driving impurities out of the system, and restoring health and power to resist chills and their after-effects. Here are three elequent proofs:

Neuralgia. Mrs. Robinson, of Alton, near Neuralgia.

ago my daughter Harriet began to be troubled with acute neuralgia, and had to give up em-ployment. She was terribly weak and depressed. Giddiness frequently seized her. Though languid and spiritless, yet sleep was denied her. She was almost an invalid for five years. But we found in Dr. Williams' Pink Pills for Pale People Then her health improved daily. Her colour returned, and she looked the picture of health, as you see her now.

Rheumatism. Mr.James Howden of Gateside-terrace, Half Way, Cambuslang terrace, Half Way, Cambuslang near Glasgow, states: "Some months ago a sharp pain shot through my shoulder and to my wrist. The agony was intense. I became quite unfit to work. A doctor treated me for rheumatism, but medicine seemed of no use. I could not even hold a chisel. I took Dr. Williams' Pink Pills and gradually the pains left me. Soon I was completely cured by the pills, and now I am fit for my trade every day, with never a twinge of rheumatism." with never a twinge of rheumatism.

Sciatica. Mrs. Higglesden, of 18 Scarborough-terrace, Burham, Kent, has endured agony from sciatica during seven years. She agony from solution during seven years. Setates: "The pain was sometimes awful. I felt as though I had hot needles pricking me from my hip down to my foot. All along the solution nerve became tender, even when I was not in actual torture. I gouldn't get about without a crutch. Sometime I felt better, but the pain would return auddent, and then I would gry out in agony for the tortures. then I would cry out in agony, for the tortures of soiatica are indescribable. My wonderful recovery," continued Mrs. Higglesden, "is due entirely to Dr. Williams' Pink Pills for Pale People. They relieved me from the first; I can walk long distances now, and sciatica is a thing

When the blood is poor or vitiated the nerves become weak, causing Nervousness, Neu-ralgia Sciatica, St. Vitus Dance, and Loss of Vitality. Dr. Williams' Pink Pills have cured hase ailments in both sexes, also Ansemia, Indigestion, Bile, Consumption Bezama, Pa-alysis, and Locomotor Ataxy.

SPORT AND PLAY.

KHEDIVIAL YACHT CLUB.

The club yesterday was looking its best and presented a very animated spectacle, especially at 4.30, when the steam launches and boats of the Austrian squadron came on the scene. At 4.45 the 7 double-backed cutters formed into line and started off on their 8 mile pull, the winning boat being that of the Saint George, whose time was 28 min. 20 secs. As the boats neared the winning post the sailors on the various ships could be seen up on the masta and yards keenly watching the race, and particularly those of the Saint George, which ship, when she saw that her own boat was winning, gave vent to screeches of delight on her steam siren. Of the single-banked whalers that of the Badenberg came in first, doing the 3 mile course in 80 min. 45 secs.

Rear-Admiral Leopold R. von Jedina was met on the landing stage by Rear-Admiral Sir Massie Blomfield, K.K.M.G., vice-commodore of the club, and, with the officers of the Austrian Squadron, was the guest of the club. Meanwhile the sailors who had been rowing were regaling themselves down in the boatsheds.

NOTES ET CRITIQUES

Le Caire, 6 Avril. Le taux de l'escompte à Londres continue à baisser; il vient d'être réduit à nouveau de 1/8 à 2 7/8 pour cent.

Hier, au Stock Exchange, le Consolidé anglais est resté invarié à 91 1/8. L'Unifiée est remontée à 106 1/4, en reprise de 1/4. La National Bank a haussé de 1/3 à 27 1/2. La Daïra est demeurée inchangée à 18 1/4, de même que l'Agricole à 10 1/2.

A Paris, l'action Crédit Foncier Egyptien et la Banque d'Athènes ont réactionné de 1 franc à 798 at à 157.

Notre marché des valeurs a été, ce matin, ferme en général et très actif sur quelques valeurs, entre autres les Delta Land, les Hooker et les Entreprises Immobilières et

La National Bank et l'Agricole se sont maintenues plus ou moins aleurs prixd'hier. L'action Crédit Foncier est restée à 797.

Fort mouvement sur les actions Entreprises Immobilières et Travaux, qui ont atteint 4 5/8 pour clôturer à 4 1/2 acheteurs. Les parts de fondateur ont monté jusqu'à L.E. 22 pour finir à 21. On sait que, par décision du consei d'administration, les 3,500 parts originaire-ment créées ont été subdivisées chaoune en 25 coupures. Or, les porteurs sont informés qu'ils pourront se présenter, à partir du 11 courant, aux bureaux de la Société pour recevoir les nonveaux certificats en échange des proiens.

Il faut s'attendre à une accentuation de la hausse sur les titres de cette Société, qui vient de conclure une très brillante affaire. Elle a pris à bail, pour une période de 60 ans, dans des conditions exceptionnellement avantagenses, 50,000 mètres de terrain à bâtir à Ghezireh. Nous serons prochainement en mesare de donner des détails sur cette importante transaction.

La part de fondateur Agricole du Nil s'est inscrite à £9 3/4. Les Omnibus du Caire sont remontés à £84 et la Khedivial Mail à 40 sh. Rien de très particulier à signaler sur les autres titres, ainsi que sur le groupe des

Hôte's, qui est resté calme. Dans le compartiment des petites valeurs, les honneurs de la matinée ont été encore pour les Delta Land, qui ont haussé à 4 5/16, en très bonne tendance. La mise en vente par petits lots, des 1,807,000 mètres carrés du domaine de la Société à Mehadi a, paratt-il donné des résultats qui ont déconcerté les pré visions les plus optimistes. On comptait ob tenir en moyenne P.E. 40 par mètre; or, la plupart des lots ont été disputés entre P.E. 80 et 150. Il s'ensuit que le bénéfice global est appelé à dépasser deux à trois fois celui qui

était supputé lorsque l'opération fut décidés Les Hooker ont embotté le pas aux Delta Land : ils ont avancé à 1 1/4.

On nous rendra à ce propos la justice de reconnaître que nous avons été presque seuls à recommander les Delta Land, ainsi que les Hooker, même alors que l'un et l'autre de ces titres Staient à leur plus bas cours, soit restuelle établit, une fois de plus, que nous avions pleinement raison.

Comme il fallait s'y attendre, la souscription aux actions de la Gharbieh Land Co. a obtenu un plein succès. On assure que l'émission a été converte plus de trois fois entre le Caire et Alexandrie.

Dans les milieux bien renseignés, on s'attend, sur les Egyptian Markets, à un proche mouvement de hausse qui serait déterminé par le décompte de la plus-value énorme ac quise par les terrains dans lesquels la Société est intéressée dans toute l'étendue du pays.

Il va de soi que cette plus-value donnerai au titre une valeur intrinsèque considérable ment supérieure au cours actuel. Nous crai gnons, pour l'instant, de donner des indications plus précises à ce sujet; elles pourraient être préjudiciables à certains projets dont la réalisation n'est peut-être pas lointaine.

Suivant des informations d'Alexandrie, les comptes de l'Egyptian Trust and Investment Ltd. (Glymenopoulo) ne seront pas clôturés avant le 80 juin prochain, afin que les opération faites au cours de la première appée d'exercice scient tontes comprises dans le bilan. On sait, en effet, que la Société n'a commencé à fonctionner qu'à la fin de mai 1905.

Ainsi que nous l'avaient fait pressentir hier nos cablogrammes spéciaux de New-York, les

ours du coton montrent une nouvelle ten dance à la hausse en Amérique. Le disponible et l'Octobre ont encore gagné 5 points chacun

Les arrivages à New York ont été de 16,000 balles contre 35,000. Le marché de Liverpool est en hausse

Ici, pourtant, le Mai a ouvert ce matin à 22 9/16 pour clôturer à 21 31/32 sur de forte

LA BANQUE D'ORIENT.

Nous avons déjà entretenu nos lecteurs de l'émission de la Barque d'Orient.

S'agissant d'une affaire que nous considéron comme de tout premier ordre, nous attiron lear attention sur le prospectus que nous publions d'autre part, et nous leur rappelons que es sonscriptions seront reçues les Lundi 9 et Mardi 10 courant, aux guichets de la succursale du Comptoir National d'E-compte i Alexandrie, et de la Banque d'Orient à Athènes, à Alexandrie, au Caire, à Salonique et à Smyrne, ainsi qu'à la Banque Nationale de Grèce à Athènes.

REVUE COMMERCIALE

Cotone

Des le début de la semaine, la spéculation à la bausse a montré des velléités helliqueuses et pour la matinée de samedi, celles-ci se sont traduites par une avance de 1/4 de tallari.

Lundi, dans la première séance, ces dispositions se sont encore accentuées et ont fini par porter le Mai, pour un moment, à 21 17/32 mais dans la journée même il y a su calme et réaction & 21 5/82 à la suite des nombrenses réalisations qui ont eu lieu. Toutefois, en c'ôture, le ton a é é un peu meilleur avec rélève ment de 1/8 dans la cote.

Ce petit revirement a fait reprendre coprage aux haussiers qui, allégés quelque peu et ayant considéré le recul de la veille comme un simple arrêt pour n.ieux courir ensuite, se sont mis carrément le lendemain aux achats en poussant les cours jusqu'à 21 3/16.

Le succès ayant de la sorte répondu à leurs efforts, lear audace n'a plus, pour ainsi dire, connu de bornes et avec la liquidation plus ou moins volontaire d'une position à la baisse de 30000 cantars environ venant se greffer à leurs manœuvres, ils ont réussi dans les denx journées suivantes à porter le prix du Mai à 22 9/16, cours maximum de la semaine.

Dans ces conditions, la réussite était com plète, mais au fond elle n'était pas exempte d'étonnement : dans tous les cas, elle a donné à réfléchir aux deux camps, haussier et baissier. et nous a valu de la part de ce dernier une manœuvre qui n'est pas restée infractueuse. En effet, des l'ouverture de ce matin, et en vne d'empêcher une nouvelle compensation à de hauts prix, une forte pression a été exercée sur le marché et comme en même temps les ordres de vente étaient nombreux de la part des haussiers mêmes, les courn'ont pas tardé à s'en ressentir d'une facon marquée. Le fait est que ce matin nous avons en notre bonne petite panique avec près d'un tallari de baisse sur les cours de Jeudi, et l'on prétend même que le monvement a é'é largement secondé par les informations ca blées au Caire par que ques timorés qui vo cette campagne à la hausse. Nous ajouterons même, et sans la moindre intention d'être désagréables à personne, qu'au Caire il s'était produit une affolement tel que plus d'un olient a tenu à liquider sans tenir compte des conseils de leurs correspondants qui s'égosillaient à leur téléphoner, et avec juste raison, que dans les conditions où l'on se trouvait, le moment était bien mal choisi pour vendre et qu'il valait mieux attendre. Mais rien n'y a fait et de très fortes réalisations ont en lien seulement au niveau de 21.5/8 à 21 11/16 les auteurs mêmes du coup, combiné on fortuit, ont sagement pensé que l'occasion était on ne peut plus propice pour se racheter, ce qui fait que leurs rafles ont fini par provoquer un ralliement et une première reprise de 5/16 de tallari.

Dans l'après-midi, cette amélioration a été snivie par une autre d'égale importance et cette fois se sont les imprudents qui s'étaient engagés à la baisse au plus manyais moment qui ont fourni un appui p'écieux aux que'ques haussiers qui avaient su garder leur sang froid et qui de la sorte out réussi à réagir avec succè. Tout compte fait, la cote de ce soir nous montre une perte de 1/4 de tallari du point le plus haut que nous avions atteint, tont en nous laissant un béréfice net depuis vendredi

Les amateurs d'émotions en ont eu pour leur argent, car, en réalité, il aurait été très aur les cours qui nous sont venus ce soir avec difficile de leur offrir une semaine plus agitée que celle que nous venons de traverser.

elle n'a subi aucun changement radical, étant bonnes.

donné que tous les éléments ou les prétextes de hausse subsistent tels qu'ils étaient, avec cette seule exception que nous sommes à des prix trop é'evés et que ce qui s'est parsé anjourd'hui devrait inspirer quelques idées de modération dans les manipulations futures.

Tel ne paratt cependant pas être le senti ment des haussiers, qui continuent à croire à l'existence d'un découvert à exploiter et qui prouvent leurs dispositions à maintenir ou à prolonger la situation actuelle en cherchant à reporter leurs positions sur Juillet. On a déjà offert 5/8 de report, mais comme les vendeurs tiennent à 3/4 de tallari, il est probable, que nous finirons par voir les transferts s'opèrer à es conditions.

Il est superflu d'ajouter que toutes cefluctuations nous ont valu un grand courant d'affaires.

La nouvelle récolte a aussi été suffi amment active, mais quoiqu'elle n'ait pu se soustraire à l'influence de l'ancienne, ses variations ont été très limitées, le maximum pratiqué pour le Novembre n'ayant pas dépassé es 17 tallaris et le minimum s'étant arrê é à 16 11/16, avec une cloture finale à 16 13/16. soit à peine une hausse de 5/16 sur vendredi

Parler de consommation, ce serait du temps perdu : le marché est plus que jamais entre les nains de la spéculation et pour le moment est elle qui reste l'arbitre unique de la situation. La filature est par conséquent réellement à plaindre, tous les besoins indispensables étant ncontestablement loin d'être couverts en entier.

Elle s'en tirera comme elle pourra. Le marché du disponible a été francheme manvais: il y a bien eu quelques affaires par-ci, par là, mais dans l'ensemble la demande a été insignifiante et les prix irréguliers. Quant à la cote, elle a dû nécessairement êtrè modifiée, et oe sont les Mit Afifi qui ont subi les plus grands effets de la hausse des contrats. Parlant chiffres, les classements livrables contrats ont été affichés à tallari 1 1/2 plus cher qu'il y a huit jours, ce qui nous fait voir le Good au mêne prix que l'Extra Ioannovich. C'est tout simplement inoui, mais cela s'explique tout seul en face de la situation du terme. Les qualités yaient déjà la déband de finale de tonte inférieures n'ont avancé que de 1/2 à 1 tailari. Pour les provenances Haute Egypte on a affiché de 1/4 à 3/4 de hausse, tandis que les Abassi et les Ioannovich n'ont avancé que de 1/2 tallari à l'exception de l'Extra Abassi qui vaut 1 tallari de plus que la semaine dernière. Au fond, pourtant, on considère toutes ces cotations comme à peu près nominales.

La situation statistique continue à favoriser de plus en plus les intéressés à la hausse : l'exportation, sans atteindre les prévisions s'est quand même élevée à 17400 balles, contre 18200 en 1905 pour la même période, et par suite du peu de recettes que nous avons, c'est un nouveau déficit de 110,000 cantars environ que l'on relève dans la quantité représentant notre stock, ce qui fait que sur place nous avons 25,0 0 cantars de moins que l'année dernière à cette date. Ce n'es pas du tont encourageant pour ceux qui persistent à croire à la possibilité d'une baisse naturelle et

sensible d'ici la prochaine campagne
Pour la semaine prochaine on croit à une exportation beaucoup plus réduire que celle de l'année passée qui a été de 21000 balles.

Liverpool avait fini per bouger sérieusement pour les égyptiens et hier le disponible y était coté à 9 7/8 et le Mai à 10 1/64, soit respecti vement avec 3/8 et 36/64 de hausse, mais sur la faiblesse montrée ce matin par notre marche et comme si elle é ait déjà devenue définitive, la découvert de là-bas s'est empressé de peser 1/16 et 13/6 de réaction. C'est aller un peu trop vite et très probablement nous aurons de Quant à la situation de l'article, au fond, main une reprise. Les ventes ont aussi été assez

L'Américain a su un marché assez actif et pour certaines journées on a renseigné jusqu'à 15.000 Balles de ventes. Pour ce qui est des prix, on n'enregistre que 7 points de hausse sur le spot et 4 à 6 pour les foturs, mais en cela on n'a fait que refléter les changements survenus à New-York.

La spéculation sur les Américains est plutôt tiède, mais la filature, avec ses achats importants et suivis, o mmence à la secouer de sa torpeur. Dans tous les cas on dit maintenant que le sentiment à Liverpool est pour la hansse à cause de la situation de Manchester qui est solide et de plus en plus prospère.

On ne cesse d'affirmer de New York l'existence du Corner sur Mai, information qui trouverait sa confirmation dans le fait que Price achète constamment du Mai, tout en se convrant par des ventes sur Juillet; dans tous les cas, New Orleans se montre égal ment haussier et il paratt que c'est le temps qui amtrarie et retarde le complément des ensemen cements, qui est le principal stimulant des Américains aux achats.

Chez no s aussi il a fait trop froid ces jours derniers et l'on prévoit déjà des réensemencements venant se greffer au retard cons-

Graines de Cotons

Les arriveges de la semaine ont été plus que modé é et comme les exportations les ont de beaucoup dépassé, il s'en est suivi un raffermissement sur les cours du di-ponible qui est monté tout bonnement à P.T. 72. Cette hausse a aussi é'é favorisée par la situation des contrate et, tout bien considéré, les prob bilités semblent être pour une amélioration ultérieure, vu les besoins de l'exportation pour les prochains embarquements, ainsi que le fait que les quantités à expédier en Avril ne font qu'augmenter de jour en jour.

L'Angleterre ne montre pas encore de l'emballement, mais, somme tonte, elle n'a pas résisté à la hausse de notre marché et l'on affirme qu'elle a payé jusqu'à £ 6.16/8 pour l'Avril.

Dans tous les cas, il se fait tous les jours que'que chose pour Hull et comme les besoins existent et que désormais la consommation est fixée sur les quantités réelles sur le quelles elle peut compter pour le restant de la campagne, une certaine activité est à prévoir de ce côté là.

Les huiles étant plus fermes et la graine de lin étant moins offerte, on trouve que cas denx éléments ne peavent que favoriser notre graine de coton, surtout s'il vient à surgir un peu plus de demande pour les tourteaux.

En contrats, il y a eu un peu d'affaires, avec une forte hausse sur les cours qui avait porté l'Avril à 74 Piastres ; par la soite et avec le déserroi du marché cotonnier, nous avons fléchi à 72 1/4, mais ce soir nous sommes de nouveau en reprise et nous finissons & 73 avec tendance a la hausse. L'excellente situation de l'article vec nos ressources plus que limitées est incontestable et la spéculation et de plus en plus convaincue que la hausse devra continuer. Si l'on veut une preuve de ses dispositions on n'a qu'à voir de quelle façon la première filière d'Avril, qui a été de 16 , 00 ardebs, a été saluée par la hausse des prix. Anjourd'hui on ne craint plus l'effet d'aucque nouvelle émission, d'autant plus que l'exportation achète de l'Avril et que la plus grande partie de ce mois est dejà reportée sur des mois plus éloignés.

La nouvelle récolte a aussi donné lieu à quelques transactions qui, quoique peu impor tantes, n'en ont pas moins produit ne amé lioration des cours qui sont actuellement à P.T. 63 1/2 pour les 3 mois Novembre-Décemore Janvier. L'Angleterre ne s'est pas encore intéressée à la dite échéance, mais il est fort probable que le déport de P.T. 10 qui existe finira par attirer l'attention de quelques fai-

La campagne a commencé pour l'article et bien qu'on n'y fasse encore pas grand chose, nous commencerons à nous en occuper.

Les premiers jours, les hauts prix que nous vions pour le disponible avaient attiré quelques envois bâtifs, mais la rapidité de la chute de 125 à 92, a presque coupé court aux expéditions de la Haute-Egypte. Il est pourtant certain que, si la récolte est réassie, comme on e dit, nous ne tarderons pas à voir venir de la marchandice, mais pour cela il faut attendre jusqu'à ce que les besoins de la consommation de l'intérieur même, qui n'a pas de réserves en vieilles fèves, soient comblés. Cela ne tardera pas longtemps.

L'Europe montre de l'intérêt pour l'article et n'attend que de plus forts arrivages permettant à nos exportateurs de faire des offres pour nous passer des commandes.

En contrats, il n'y a que de rares affaires et la cote est à considérer comme étant plutôt nominale. Aujourd'hui, le Septembre-Octobre est affiché à P.T. 95 1/2.

CHRONIQUE FINANCIERE

Alexandrie, 6 avril. Sur les grands marchés régulateurs de Londres et de Paris la situation monétaire s'améliore rapidement. La preuve en est que le taux d'escompte de la Banque d'Angleterre tombe à 3 1/2 %, et le tanx privé à 2 7/8 %, pendant que le consolidé se relève à 91 1/8. Il y a bien en perspective les emprunts russe et japonais qui draineront sous peu des sommes importante, mais la pléthore des capitaux est telle en ce moment que ces emprunts seront aisément

Malgré l'abondance de capitaux en question et l'henreuse fin de la conférence d'Algésiras les cotes européennes n'ont guère moussé jus qu'à présent ; du moins n'ont elles pas haussé ntant qu'on l'espérait.

Il n'en est pas de même ici. Depuis vendredi dernier nous constatons des fluctuations mons trueuses que seule peut justifier une spéculs tion eff é ée : c'est ainsi que la Nile Land passe d. £8 à £12 3/4 et la Delta Land de 7/16 à 4 5/16. On sait que ces deux valeurs étaient dernièrement délaissées à 7 et 2 1/16 respectivement, Cette hausse disproportionnée est une consequence de la folie spéculatrice en terrains, qui semble gagner peu à peu toute la population. Pourvu que cela ne nous conduise

pas à une catastrophe ? Tandis que certains titres, comme ceux ci desans et bien d'autres qui ne datent que d'hier accosent une poussée énorme (quelques uns ont plus que doublé en un semestre), nous voyons nos meilleures valeurs abandonnées à les prix relativement bas. Une comparaison me fera mieux resportir sur ce point l'incon

équence de nos boursiers L'Agricole, la Ramleh Railway, la Delta Light et la Deferred Delta étaient respective ment le 7 avril 1905 a 13 1/2, 8 1/4, 14 8/16 et 15 ; elles sont aujourd'hai à 10 8/8. 6 3/4 12 1/2 et 12 1/2, soit en a oyenne deux livres au dessous du cours de l'année dernière. Ces exemples sont d'autant plus suggestifs que ces valeurs figurent parmi celles qui se recommandent comme valeurs de placement. Que voyons nous d'un autre côté? Une foule de titres ne pouvant rivaliser ni de sécurité ni parfois de rendement qui ont augmenté de moitié ou même doublé. Quelques-uns, en effet, ne voyant que le résultat stupéfiant d'un premier ex roice se lancent àcorps perdu sur des titres nouveaux qui penvent être bons sans doute, mais qui ne justifient pas un pareil engouement. Nous leur souhaitons qu'ils n'aient pas à s'en repentir.

La semaine a débuté dans le calme ordinaire do samedi : seules l'Agricole, la Delta Land et 'Investment ont donné lieu à des transactions suivies; mais dès lundi, le relèvement que nous avions prévu dans notre dernière chronique s'est produit à la suite des bonnes nouvelles venues d'Algésiras. Cette heureuse issue des négociations concordant avec la fin des liquidations de fin du mois, la reprise s'est centuée le mardi sur toute la ligne et les affaires ont pris une animation extraordinaire qu'elles ont conservée jusqu'anjourd'hui Parmi les valeurs les plus échargées dans le courant de la semaine il faut citer l'Agricole. la Delta Land, La Nile Land, le Comptoir, la Delta Light et, au début l'Investment.

Sur un total de 49 valeurs inscrites à la cote officielle 28 sont en hausse, 8 en baisse et 11 restent stationnaires. Les fluctuations les plus emarquables sont : à la hausse, l'Agricole qui gagne 5/16, la Delta Light 3/16, la Deferred Delta 1/2, la Delta Land 13/16, la Nile Land 4 livres 1/2 la Land Bank 3/8, le Comptoir 1 livre 1/8 l'action, 6 livres la part de fondateur, le Crédit Franco-Egyptien 3/16; à la baisse, la Daïra Sanish qui perd 5/16, et la Nungo-

Demain a lieu l'assemblée du Comptoir Financier et Commercial. Le conseil d'administration proposera, dit-on, aux actionnaires de porter le capital de 200 à 500000 livres, dont 200000 par l'émission immédiate de 40000 actions à £5 et 100000 par une émission ultérieure au gré du conseil et sans nouvelle con vocation. Le dividende intérimaire à distribuer era probablement de 20 à 24 P.T.

Ajoutons à ce propos que la Société de Navi-gation que doit lancer le Comptoir et dont nous avons été les premiers à parler faisait ce matin nne prime de 1/4 à 7/16.

La hausse de la Nile Land est, paratt-il déterminée par le bruit d'après lequel cette société aurait réalisé un bénéfice énorme sur achat d'un terrain.

La Banque d'Orient qui, comme on le sait. svait été lancée par la Banque Nationale de Grèce et la Deutsche Bank va porter son capital à 15.000.000 par une nouvelle émission d'actions sous les auspices de la Banque Nationale de Grèce et du Comptoir National d'Escompte

La nouvelle d'après laquelle l'Egyptian Investment Agency (Abdy) serait sur le point de ancer une banque de reports prend chaque our plus de consistance. Suivant quelques-uns affaire sera t virtuellement conclue.

Jusqu'ici les pourparlers pour la fusion de la Port Said Salt Association avec la Salt & Soda n'ont pas abouti. Les administrateurs de la Port Said Salt Co. estiment qu'il est plus

avantageux pour celle-ci de rester indéper dante, car la concession de la Salt & Sods expire dans cinq ans tandis que la Port Said Salt a le droit d'exploiter la saline de Port Saïd pour une durée de cinquante ans. En outre le capital de la Port Said Salt étant réduit peut être rémunéré beaucoup plus

M. Montgomery a visité dernièrement les propriétés de la Corporation of Western Egypt pour le compte d'un gros actionnaire de cette compagnie. Voici en quelques mots le résultat te son enquête : la direction lui semble excellente et les résultats déjà obtenus paraissent justifier les dépenses effectuées, Courtier luiême en terrains et fermier, il estime que la qualité du sol des Oasis égale celle des autres provinces de l'Egypte. Le chemin de fer en cours de construction augmenters dans de fortes proportions la valeur de ces terrains; les travaux en sont poussés active nent. Quant à la surface cultivable, sans l'évaluer de façon précise, il assure qu'elle est immense, et que le sol est de la plus grande fertilité. Les récoltes qu'il a pu voir sur pied l'ont rempli de satisfaction ; elles sont comparables à celles de toute autre partie de Egypte. Aussi des acheteurs se présentant-ils déja en grand nombre. Sur la question de l'eau, il est persuadé que non seule les Romains il y avait une bien plus grande surface cultivée mais qu'il est facile de recon quérir le terrain perdu par le forage de nou-veaux puits ou le simple ourage de ceux qui existaient autrefois. Des mines fort productives étaient jadis exploitées dans les Oasis de la Corporation of Western Egypt et les géologistes de la Société se prononcent en faveur de la reprise de cette exploitation.

MOTHER'S EXPERIENCE.

We have received a communication from Mrs. L. Lewis, of Hazelhurst House, St. Andrew's Rd., Cogan, nr. Penarth, Wales, which is exceptionally interesting. Just previous to the birth of her first child

Mrs. Lewis became so ill with dropsy that her life was despaired off. The premature birth of the child, however, saved her, and the dropsical swellings went down somewhat. But at the second period of pregnancy the dropsy reappeared worse than ever, the water threaten ing the patient's heart. A specialist and Mrs Lewis's own doctor agreed that the case was hopeless, but the second child was providently born some months before its time, and the mother's life again saved. The doctor then warned the patient that to attempt to rear children would cost her her life, but at this time Mrs. Lewis heard of Doan's Backache Kidney Pills, and began taking them. This medicine drove away every trace of dropsy and kidney trouble, and so built up the patient's strength that her third child was born healthy and strong, and up till the last the mother was able to perform her household duties. It was on 12th April, 1902, that Mrs. Lewis

told us of her cure, and on August 3rd, 1904 - over 21 years later - she said: - I've never had the least sign of dropsy or kidney trouble siece my ours by Doan's Pills. And I've more good news to tell you : twelve months ago I gave birth to another baby—and a fine little fellow he is!" Dosn's Pills are special kidney help. When a cold, misuse of beer, spirits and tea. or any other cause, puts extra work on the kidneys, Doan's Pills give the additional help needed; when the delicate kidney tissue is weakened or clogged, Doan's Pills strengthen and cleanse it; when the bladder-walls and urinary passages are inflamed and coated with impurities, Doan's Pills allay the irritation and emove the cause, by driving out the clogging

Doan's Kidney Pills are for sale by all chemists and druggists at 13 P.T. per box, or 71 P.T. for 6 boxes; or they may be had direct from the general agent for Egypt,-Max Pischer, Mousky Street, Cairo.
